EDUCATION

Northeastern University

September 2021 – May 2025

B.S. in Computer Science | GPA: 3.5, Cum Laude

Boston, MA

Relevant Coursework: Data Structures & Algorithms, Networks and Distributed Systems, Object-Oriented Design, Web Development, Data Science, Computer Systems, Database Design, Software Engineering, Cybersecurity

The University of Tokyo

April 2024 – August 2024

USTEP Exchange Program

Tokyo, Japan

EXPERIENCE

Sirinti

June 2025 – Current

Full Stack Software Developer

Remote

- Developed and enhanced front-end components and features for the startup's homepage and dashboard interface
- Designed and implemented RESTful API routes and endpoints to optimize CRUD operations across PostgreSQL database, NestJS backend, and Vite frontend architecture

Cirrus Data Solutions Inc.

June 2023 – December 2023

Software Engineer Co-op

Remote

- Enhanced a web application which employed virtual machines for data migration and testing demonstrations of an enterprise cloud product utilized by 500+ worldwide organizations
- Improved efficiency for administrative tasks via resolving bugs and introducing new user-friendly features
- Consolidated virtual machine observability from Azure and AWS onto a unified interface
- Added tracking of KPIs and metrics that were not natively shown by cloud providers, significantly reducing spending

Chirp

February 2023 – May 2023

Software Developer Intern

Remote

- Self-learned HTML, CSS, and PHP to successfully deploy a website for UPenn Wharton Venture Initiation Program startup
- Coordinated with UX/UI designer to apply code in alignment with Figma designs for website serving B2B/B2C interests

Northeastern Electric Racing

September 2022 – May 2023

Software Team Member

Boston, MA

- Contributed to development of a project management website used by over 250 members
- Developed skills in Git, React, TypeScript, Express, and Prisma through Jira tickets

PROJECTS

Animal Farm | Unity, C#, Firebase

Current

- Collaborating with international peers from University of Tokyo exchange program to develop a mobile productivity application
- Implemented Firebase authentication and database infrastructure while expanding technical expertise in C# and Unity development frameworks

Portfolio Website | TypeScript, React, NextJS, NodeJS

August 2025

- Designed and deployed a responsive full stack web application to showcase projects, professional experiences, skills, and interests
- Developed API endpoints for image gallery management with multi-layer caching architecture to enhance application performance and user experience

Kanbas | TypeScript, React, JavaScript, NodeJS, MongoDB

December 2024

- Developed an interactive full-stack copy of the course management web application Canvas
- Implemented RESTful API endpoints to support CRUD operations and connected MongoDB database to back-end via Mongoose for efficient data storage, retrieval, and manipulation

SKILLS

Languages: Python, Java, TypeScript, JavaScript, C, C#, SQL, NoSQL, HTML, CSS, PHP, Shell

Developer Tools: Git, VS Code, IntelliJ IDEA, DataGrip, Docker, Figma, Ngrok, VMWare, Gradle, Jenkins

Technologies/Frameworks: React, NextJS, NestJS, Vite, Motion, Redux, NodeJS, ExpressJS, PrismaJS, Jest, MongoDB, PostgreSQL, Firebase, Flask, Windows OS, MacOS, Linux

Spoken Languages: *Bilingual Proficiency:* English, Japanese | *Intermediate:* Mandarin
